How to Organize Drawers

Work at your own pace. Tick off what you finish and leave the rest for another session.

Date: _____ | 8 tasks

Use a product suited to the surface and follow its label. Never mix cleaning products. Keep them away from children and pets.

01 / Steps to Organize

- [ ] Empty the drawer
- [ ] Discard any expired products, empty containers, or items you no longer use
- [ ] Sort the remaining items into categories: skincare, haircare, makeup, dental care, etc.
- [ ] Use drawer organizers or dividers to create separate compartments for each category
- [ ] Prioritize essentials in easily accessible spots within the drawer
- [ ] Utilize organizers that allow for vertical storage to make the most of the drawer's height: small bins or containers to stack items
- [ ] Consider labeling or color-coding containers or dividers to make it easier to find what you need quickly
- [ ] If you store towels in bathroom drawers, roll them to save space and make them more accessible
